

CVO13 - Freight Assignment Tracking Logistics

freight transportation status (CVO02):

A time-stamped status of a freight shipment as it passes through the supply chain from manufacturer through arrival at its final destination; including cargo movement logs, routing information, and cargo ID's.

booking status (CVO13):

Status of the freight transport booking that includes the identities of the Commercial Vehicle and driver who will pick-up the freight or a request for more information from the originator.
